Ahmedabad, GJ

Familiarity With:

Livewire, Vue.js, Filament

Experience:

Abbacus Technologies

Laravel Developer
Jan 2024 – July 2025

★ Awarded with Quick Learner of The Month (July,2024)

My key learnings and contributions include:

- Developed RESTful APIs and core Laravel features including routing, controllers, Blade, and Eloquent ORM.
- Optimized application performance through queue jobs, caching, and integration with third-party APIs/webhooks.
- Built secure admin panels with role-based access control while leveraging Laravel packages to solve business needs.

Aavatto

Laravel Developer
July 2025 – Present

- Working solely as a backend Laravel developer, responsible for developing REST APIs, working with front-end developers & providing assistance to senior developers on ongoing projects.

Profile:

As a **Laravel Developer** with over 1.5 Year of hands-on experience, I have successfully contributed to a variety of **10+ live projects**. My experience includes working with **Vue.js, Livewire & Blade** for dynamic front-end applications, using **Chart.js** for better data-visualization, developing robust in-house projects using Laravel, **building APIs** for mobile applications using **JWT** and **Sanctum**, integrating **custom payment gateways** like Netvalve and performing **version upgrades**. Additionally, I enjoy exploring new tools and features within the Laravel ecosystem. As part of this, I have gained hands-on experience with advanced Laravel concepts such as **broadcasting, webhooks, notifications, and queue jobs** through practical projects. I am dedicated to staying current with industry trends and best practices. My objective is to continuously improve and leverage my skills to drive innovation and success for the company.
